'We Want to Be Back at Work': Workers to Return to San Bernardino Attack Site on Monday

(NBC4) A month after a deadly rampage left a Southern California social services facility the scene of a federal terrorism investigation, workers will be allowed to return to the campus, though not the building where the shooting took place. Over 500 people will be allowed back on the Inland Regional Center's campus in San Bernardino on Monday, according to a news release. The center's executive director is scheduled to speak in what may be an emotional moment. Fourteen people were killed and more than two dozen injured in the shooting at the facility, which serves more than 30,000 people in the community about 60 miles east of Los Angeles. Few of its 600 employees have gone to the office since the terror attack on December 2, 2015, other than a brief visit to gather personal belongings. Both shooters were killed after a gunbattle with law enforcement and a friend of one gunman is in jail in connection with the shooting and a failed, earlier plot. While many of the Inland Regional Center's employees have continued to work, visiting the homes of children with autism and mentally disabled adults, they haven't been together in the place where everything froze once law enforcement officers whisked them away. The act of reuniting on campus will be a huge step forward for Inland Regional Center staff. They miss the friendly faces, the hallway chit chat, according to Lavinia Johnson, the center's executive director. They yearn to renew a sense of stability at an institution unmoored by violence. "That's what I'm hearing from them: 'We want to be together again. We want to be back at work,'" Johnson said. As employees return to work on Monday. California Gov. Jerry Brown is expected to attend a private memorial service in Ontario to honor the shooting victims. The independent, non-profit Inland Regional Center serves people with developmental disabilities. It is the largest of California's 21 regional centers. According to a release from the center, hundreds of iPads will be distributed to employees so they can access information remotely. Amid the investigation and cleanup, the campus has been locked behind a chain link fence wrapped in green mesh. While two of the buildings are being reopened Monday, one building will remain closed indefinitely. That is the location where Syed Rizwan Farook and Tashfeen Malik opened fire on a holiday party being held by the San Bernardino County health department where Farook worked.

International News – Significant Events

As Saudi Arabia severs ties with Iran, questions loom in volatile region

(CNN) Following the execution of a prominent Shiite cleric in Saudi Arabia and relations between the two Middle Eastern powerhouses deteriorate, Saudi and Iranian officials continue to trade barbs. Iran is committed to protecting diplomatic missions, a Foreign Ministry spokesperson told the press Monday, and reiterated that there were no Saudi diplomats harmed or even present during an attack on the Saudi Embassy in Tehran. He added, however, that Kingdom is looking for "excuses" to further harm the two countries' formal relations. "When it comes to protecting and also safeguarding and observing international commitments regarding protection of diplomatic missions Iran naturally has taken proper action and will continue to do so," Jaber Ansari, Iranian Foreign Ministry spokesman, said. He added that Iran had acted to hold perpetrators of the attack on the Saudi mission accountable, but accused Riyadh of using the incident to ratchet sectarian tensions between the two. "The Saudi government is looking to seek for some excuses to pursue its own unwise policies to further tension in the region," he said. The two countries have long been at odds, but the comments come after Saudi Arabia kicked out Iran's diplomats, saying the attack was the last straw. It's not uncommon for countries to boot officials when they're at odds, but analysts say Saudi Arabia's decision to sever diplomatic ties with Iran on the heels of its execution of Nimr al-Nimr, the Shiite cleric, could be an ominous sign that something much more serious is in the offing. "The diplomatic rupture between Saudi Arabia and Iran could easily spiral out of control," said Fawaz Gerges, chair of contemporary Middle Eastern studies at the London School of Economics.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A return to wet weather is expected this week as a series of storm systems impact Northwest California. The first system will move onshore starting today and continue into Tuesday, with a second system for Wednesday. A third system is possible late in the week. The storm systems will bring periods of rain, mountain snow, and gusty winds.
- A series of storm systems are expected to impact Southwestern California today through Friday. The first storm is expected to move across the area today, bringing some rain and mountain snow above 5500 feet. A stronger storm is forecasted for the area on Tuesday, when there will be widespread rain and mountain snow above 6000 feet. Significant snow of 1 to 2 feet with strong winds could create winter storm conditions above 7000 feet. The Tuesday system will also bring the potential for brief higher intensity rainfall rates which could bring the threat of flash flooding and debris flows in recent burn areas. Additional storms will likely impact the region between Wednesday and Friday. These appear to be colder systems with snow levels potentially falling to around 4000 feet at times possibly impacting Interstate 5 near the Grapevine. There will also be the potential for brief heavy downpours and isolated thunderstorms later in the week. Periods of gusty winds through next week will bring the potential for downed trees and power outages.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A series of offshore low pressure systems and frontal boundaries will produce precipitation across the region at times through this week.

Medford Weather:

A weak upper trough is moving through the forecast area this morning and will bring light rain mainly to areas West of the Cascades. Morning temperatures in some Westside valleys will be near freezing as the first areas of light rain arrive and given there is a distinct warm layer aloft have added a slight chance of freezing rain for the Klamath river, Scott, Illinois and Applegate valleys this morning. A dry layer per the morning sounding should prevent most rain from reaching the ground until surface temperatures warm, but there is still a chance for some light freezing rain.

Reno Weather:

A more active storm pattern will set up across the region this week with periods of impact to travel, especially across the sierra. At this time, the greatest impacts will be Tuesday and next weekend as a couple of stronger storms bring more widespread and moderate snowfall potential.

San Francisco Weather:

Light rain is expected over most of the region today as a weak weather system moves inland. This is the first in a series of weather systems expected to impact California through the week. The second storm on Monday night and Tuesday morning will be much stronger and will likely produce heavy rain and locally strong winds. Another strong storm with heavy rain and even stronger winds is expected on Wednesday. More rain will follow on Thursday. Dry weather is expected by Friday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Expect unsettled weather this week with several systems moving through the area. Rain and mountain snow is likely from time to time, especially into Tuesday, and later Wednesday into Thursday.

Hanford Weather:

A weak storm system will bring some light precipitation to the area today. A much stronger system will bring rain and mountain snow to the area Monday night through Tuesday evening. A succession of storm systems tracking eastward from the Pacific will follow and bring wet weather at times to much of the Central California interior for the remainder of the week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A series of storms will bring widespread rain mountain snow and gusty southwest winds at times through the next seven days. Colder air aloft will build into the region mid-week lowering snow levels to near the Tejon Pass over the Grapevine.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

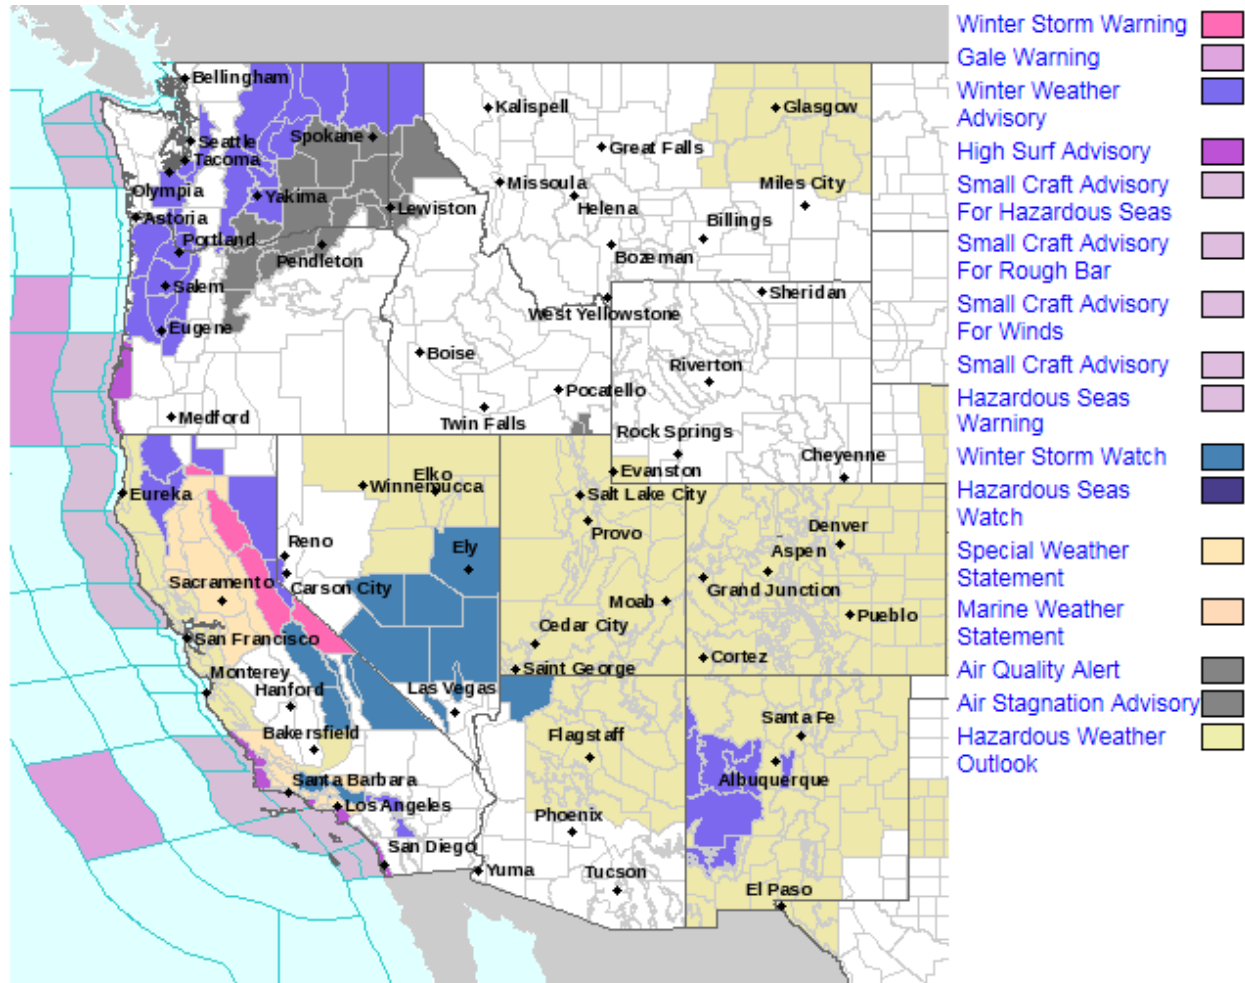

A strong jet stream moving across the Pacific will bring a series of storm systems to Southern California. The first system will bring occasional moderate showers through tonight with a slight chance of a coastal thunderstorm. A stronger system will bring rain heavy at times Tuesday afternoon and evening along with snow in some mountain areas. Subsequent storms will bring more precipitation possibly heavy late Wednesday through Friday. Total rainfall of 2 to 4 inches is likely in coastal areas this week with 6 inches or more in the mountains. Even the deserts could have around 1 inch of rain this week. 1 to 2 feet of snow locally more could fall in some of the mountains. Daytime temperatures will be 5 to 10 degrees below normal most of this week. Partly cloudy conditions with slight warming will occur next weekend.

Southeast California Weather:

The first of several storm systems expected to move through the region will lead to an upswing in shower activity today. These storm systems will bring cooler afternoon highs and mild nights throughout the week, frequent cloudy skies, while also providing several periods of light to moderate rainfall affecting each day of the workweek. Conditions will start to dry out for the coming weekend, but temperatures will remain below seasonal norms.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

New/Ongoing Missions

- **2016-LAW-20736:** Marin County SAR requested 3 SAR K9 area search dogs and 2 SAR trailing dogs for an immediate response to the dead end of Pierce Rd in Marin County. Marin is searching for a 62 y/o male missing two days. The MP's vehicle was located at a trailhead at coordinates 38.188836 / -122.953923. The male is a photographer in good health, but it is not known if he is equipped for the weather. LDO coordinated with Cal OES K9 SAR coordinator for the resources. LDO also coordinated with AFRCC to conduct cell phone forensics on the MP's cell phone. Due to weather conditions and safety concerns for searchers, the search was suspended at 2130 hours. Search resumed at 0800 on 01/03/2016 with mutual aid resources from San Mateo, Contra Costa and Sonoma County SAR teams along with Cal OES K9 SAR teams. **Mission Ongoing**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
